

EXPERIMENT-4

OBJECTIVE:create basic HTTP server using `http.createServer()`,

respond with hello world and return header + status code

,

CODE:

```
const http = require("http");

const server = http.createServer((req,res)=>{

  res.writeHead(200,{

    "content-type":"text/plain",

    "Server":"node.js"})

  res.end("hello world");

});

port = 3005;

server.listen(port,()=>{

  console.log(` server is running on http://localhost:\${port}`);

})
```
